4. **Review 2 (P.8)**
5. **Review 3 (P.12)**
6. **Testting Document (P.16)**
7. **Check list (P.18)**

PROJECT ACKNOWLEDGE

As we understand, eProject creates a realistic learning and simulation environment with a project to help you:

-Build applications from basic to advanced.

-Give a real life scenario and help to create applications more complicated and useful.

-Usage of certain utilities in applications designed by user.

-Enhance skills and add value.

- Work on real life projects.

SYNPOSIS

- Madam's Boutique is the leading store of branded and designer clothes for women.
- The boutique has tie up with various designers whose collection is on their display.
- Also different apparel, accessories collection is also available with the store. The website must be designed for this boutique showing the collection of clothing of
- various brands, designer, unstitched garments. A website needs to be developing for the boutique which must display all the collection.
- The website is to be developed for the Windows Platform using HTML5, JavaScript and Geolocation. The site should work well in all leading browsers including Chrome,
- IE, Firefox etc.

Problem Definition

- Madam's Boutique is the leading store of branded and designer clothes for women.
- The boutique has tie up with various designers whose collection is on their display.
- Also different apparel, accessories collection is also available with the store.
- The website must be designed for boutique showing the collection of clothing of various brands, designer, unstitched garments.
- A website needs to be developing for the boutique which must be developing for the boutique which must display all the collection

User

- Access and refer to the information of clothes (include: name of designer, store of branded, price, …)
- Register to become member
